

Build Status Report — Module-wise

21 July 2026 · Anand Kumar

MODULE	STATUS	LIVE NOW	IN BUILD / TEST	PLANNED
Core Platform	DONE	- User login & role-based access - Document numbering & audit trail - Item-level stock ledger (size × colour) - GST setup — Bihar & Jharkhand - Web app, runs on any device	—	—
Purchase Orders	~50%	- PO creation & confirmation - Auto-fill from vendor documents	- PO-to-receipt linking - Edge cases	—
Goods Receipt (GRN)	WORKING	- GRN against PO or direct receipt - Branded & non-branded items - Brand PT-file import with auto-mapping (9 brands, review queue, improves with use)	Edge cases — tagged / non-tagged arrivals	—
Inventory Management	PARTLY LIVE	- Stock ledger - Stock on hand	—	- Physical stock count (audit) - Stock aging & dead-stock alerts - Return-deadline tracking (SOR brands) - Demand forecasting & auto-replenishment - Inter-store size rebalancing
Transfers & Returns	TESTING	—	- Stock transfer with dispatch & receive confirmation - Inter-state GST handling - Return to vendor (RTV) - Stock adjustments & write-offs	—

POS & Billing	NEXT	—	—	- Barcode billing & GST invoice - Returns & exchange - Discounts at counter - Real-time stock deduction 3-way matching — invoice, GRN, PT
Accounts & Payments	LEDGERS LIVE	- Vendor ledger - Cash book - Trial balance check	—	- Vendor payments with approval workflow - Bank reconciliation - Collections - Tally integration
Promotions & EOSS	LATER	—	—	- Scheme management — slabs, buy-2-get-1, gifts - Discount approval limits - EOSS bulk billing (stock billed, kept in store) - Markdown planning
HRMS & Payroll	LATER	—	—	- Attendance — face check-in / check-out - Employee records & documents - Payroll inputs - Sales incentive calculation - Employee self-service
Reports & Analytics	LATER	—	—	- Brand-wise & store-wise P&L - Daily business summary on WhatsApp - Exception & fraud alerts - MIS dashboards
Administration	PARTLY LIVE	- Master data — stores, brands, seasons, tax - Basic user roles	—	- User rights & permissions matrix - Store opening / closure workflows - Data migration & store-wise rollout

In short: operations modules first — core platform and goods receipt are live, purchase orders and transfers are in build-test, POS & billing is next, accounts & payments after that. HRMS, promotions and analytics follow.
