

Sanskar — Supplier Outstanding & Ageing Report

Party-wise dues and bill-level ageing for the Sanskar unit, from the supplier ledger and the T+30 ageing register. All ages are counted from the supplier's bill (document) date.

As on **5 July 2026**Payment terms: **bill date + 30 days**Source: *Suppliers Details with ageing.xlsx*

163 open bills · 66 suppliers with dues

AT A GLANCE

The headline: ₹1.05 crore payable, and 95% of it is already past due

Sanskar has bought **₹7.32 Cr** from ~230 suppliers and paid **₹6.30 Cr**, leaving a net payable of **₹1,02,33,631**. 131 suppliers are fully settled — the entire due sits with **66 suppliers across 163 bills**. Only ₹4,94,379 is still within the 30-day term; everything else has crossed it.

CROSSES 180 DAYS WITHIN 30 DAYS

₹25,84,448

27 bills now 151–180 days old

The single most important number: ₹22.4L of these bills are already more than 180 days old. Under GST Rule 37, input tax credit taken on a purchase must be reversed (with interest) if the supplier is not paid within 180 days of the invoice. Another ₹25.8L crosses that line within the next 30 days — paying those 27 bills first protects the credit before it is lost.

- **This is not an old, forgotten book — it is a recent bulge.** 61% of the money (₹64.2L) sits in the 91–180-day band, almost all of it from heavy buying in **January and March 2026** (₹24.5L + ₹23.4L of those two months' bills are still unpaid).
- **Ten suppliers hold half the money.** The top 10 account for 50% of the outstanding — ten settlement conversations cover ~₹53.0L.
- **150 of 163 bills have had no payment at all** (₹95.1L); only 13 bills are part-paid.
- **₹2.7L of Sanskar's money is lying with 33 suppliers** as excess payment / credit balances — recover it or adjust it against fresh purchases.

- **The register needs housekeeping:** ~₹8.8L of part-payments are not mapped to bills (the ageing sheet overstates those parties), and 6 suppliers with ₹8.5L of ledger dues have no bills in the ageing sheet at all — led by Shree Garments (₹5.2L).

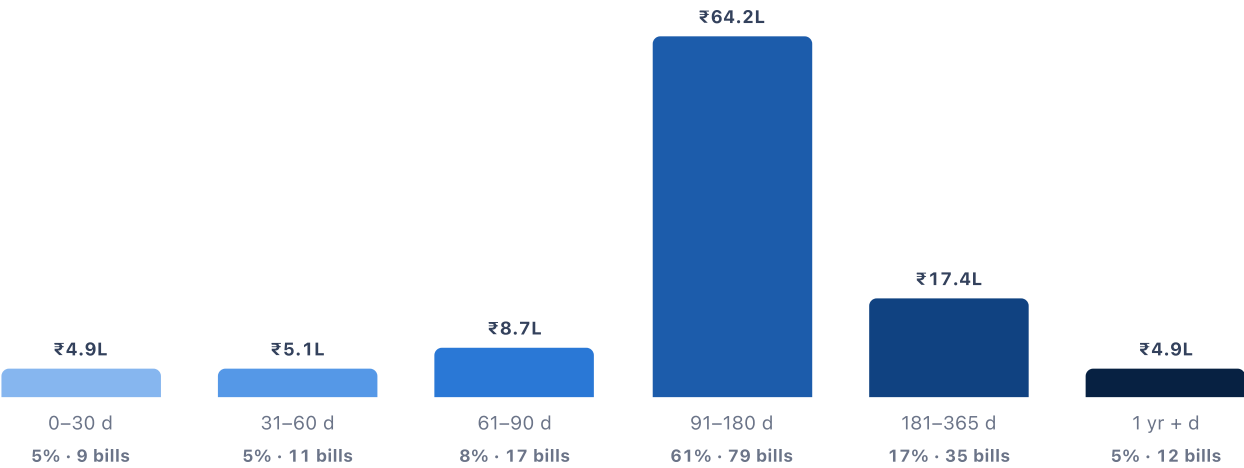

AGEING PROFILE

Where the money sits, by age of bill

Each bill is aged from its document date to 5 July 2026. The book is concentrated in the 91–180-day band — bills from the winter/spring 2026 buying that were never cleared.

Outstanding by ageing bucket

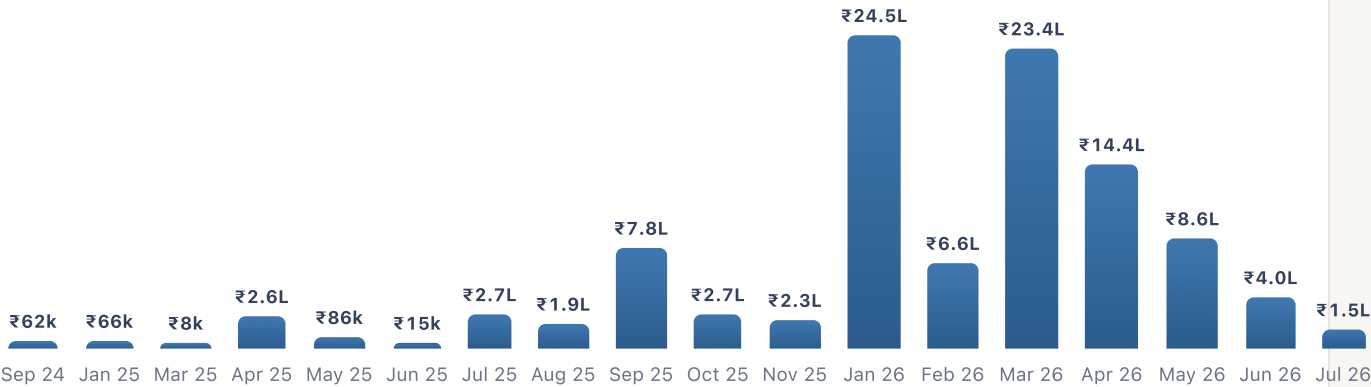

Darker = older. Everything right of the 90-day mark (₹86.6L, 82%) is seriously overdue; the last two buckets already carry GST ITC-reversal exposure.

Unpaid amount by month of purchase

When the still-unpaid bills were raised. The January and March 2026 buying seasons dominate — ₹47.9L of today's outstanding comes from just those two months.

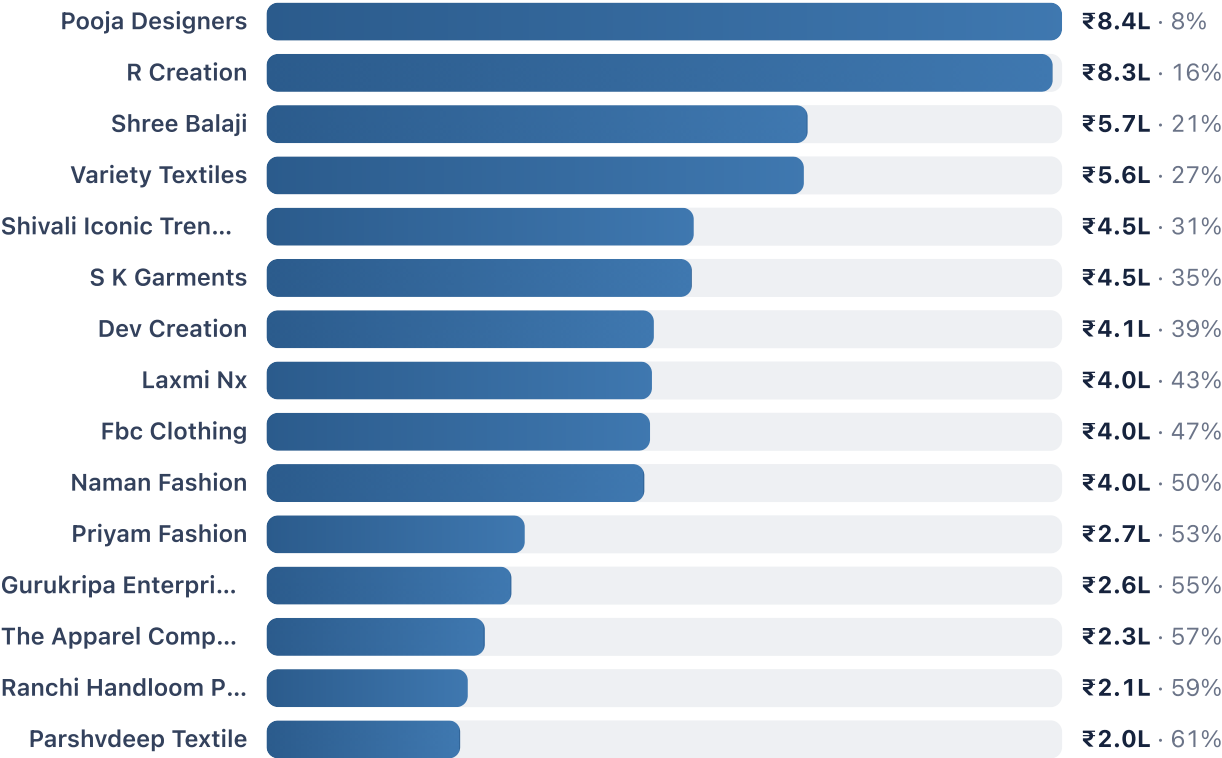

CONCENTRATION

Top 15 suppliers — 61% of the book

Ranked by bill-level outstanding. The running percentage shows how quickly the book concentrates: the top 10 alone cover 50%.

Largest outstanding balances

RISK FLAGS

Compliance and chronic accounts

GST ITC reversal (Rule 37 — the 180-day rule). ₹22,38,060 across 47 bills / 20 suppliers is unpaid beyond 180 days from the invoice date. ITC availed on these purchases is liable to be reversed with interest until paid (it can be re-availed after payment). The table below is the clearance priority list.

MSME — Section 43B(h). ₹99.9L (95% of the book) is older than 45 days. For suppliers registered as micro/small enterprises, payment beyond the 45-day statutory limit means the expense is disallowed for income tax in the year of accrual. **Action: get Udyam registration status for the top suppliers —** none is recorded in this register today.

Chronic accounts. Naman Fashion (₹4.0L, oldest bill 643 days), Zaheda Silk Sarees (₹94k), Overseas Enterprises and Bansal Trading have bills from FY 2024-25 still open. If these are disputes or quality claims, record them as such — otherwise they read as simple non-payment approaching two years.

Register gaps found during this analysis

- **~₹8,83,295 of part-payments are not mapped to bills.** For ~19 suppliers the bill-level outstanding is higher than the ledger balance (e.g. R Creation: bills say ₹8.3L, ledger says ₹6.1L). The money is paid — the ageing sheet just doesn't know which bills it cleared. Until mapped, bill-level ageing for these parties overstates.
- **6 suppliers with ledger dues are missing from the ageing sheet** — their age cannot be seen at all:

SUPPLIER (NO BILL DETAIL)	LEDGER BALANCE
Shree Garments	₹5,20,235
Anushthan Silk Mills	₹2,00,000
Sreenidhi Nx	₹72,666
Usha Textiles Ranchi	₹30,360
Ek Omkar	₹25,021
Narvada Textiles	₹90
Total invisible to ageing	₹8,48,372

- **Two bills had broken due-date formulas** (#VALUE! — Gaurav Synthetics, Sagar Textiles); their ages are recomputed from the bill date in this report.
- Payment-status labels are inconsistent ("PARTIAL", "PARTIALPAID", "PARTIALLY PAID") — one value should be used.

WHAT TO DO

Suggested action order

FIRST Protect the ITC — clear the 151–180-day window

27 bills worth **₹25,84,448** cross the 180-day GST line within the next 30 days. Paying these first prevents fresh ITC reversal. Then work through the ₹22.4L already past 180 days (20 suppliers above) — each payment allows the reversed credit to be re-availed.

FIRST Settle the top 10 — half the book in ten conversations

The top 10 suppliers hold ~₹53.0L (50%). Agree a schedule with each — Pooja Designers, R Creation, Shree Balaji, Variety Textiles and Shivali Iconic alone cover ₹32.4L.

NEXT Map part-payments to bills and fix the register

Allocate the ~₹8.8L of unmapped payments to specific bills, add the 6 missing suppliers (₹8.5L) to the ageing sheet, and standardise the status labels. Without this the ageing register cannot be trusted for payment decisions.

NEXT Recover the ₹2.7L in credit balances

33 suppliers hold excess payments (Prem Clothing ₹66k, Siddharth Enterprises ₹59k, Varnika Enterprises ₹33k lead). Adjust against the next purchase or ask for refunds.

THEN Close the two-year-old tail and check MSME status

Resolve the FY 2024-25 bills (Naman Fashion, Zaheda, Overseas, Bansal, Roop Rangi, Aditya Prints, Romshay — ₹4.9L over one year old): pay, settle, or formally record the dispute. In parallel, collect Udyam/MSME registration numbers from suppliers to size the Section 43B(h) exposure properly.

Method notes. Source workbook: *Suppliers Detials with ageing.xlsx* ("Ageing" + "Party wise Balance" sheets), analysed 6 July 2026. Age = days from the supplier's bill (document) date to 5 July 2026 (the as-of date implied by the workbook's own ageing column). Bill-level outstanding = bill credit amount – recorded payment against that bill; supplier balance = purchases – (payments + goods returns) from the party ledger. The two reconcile to within ₹35k overall; per-supplier differences are itemised above. GST Rule 37 (180-day ITC reversal) and Section 43B(h) (MSME 45-day) references are flags for the CA to confirm, not tax advice.
